

## “New” Library...no longer new

It’s hard to believe that the “new” Batavia Public Library building is nearly 20 years old. And like any house or building, there’s a life cycle of improvements that need to be made. The heating, ventilating, and air conditioning system, the carpet, the roof, the technology – these are things that need to be continuously repaired or replaced when their time comes.

The Library sees a lot of wear and tear with 725 visitors on average every day. Over 360,000 visitors use the Batavia Public Library’s resources each year. Some may not physically come to the Library, but they access eBooks and eAudiobooks online through the Library’s website. Other patrons visit the Library to use computers or attend reading clubs and storytime programs.

The community made a big investment in its Library and, like any other capital investment, such as roads, it needs to be maintained.

## The most incredible card in your wallet

Your library card can do incredible things! It gets you FREE access to books, video games, DVDs, CDs, downloads of audio and eBooks, movies, TV shows, and music, as well as databases, classes, events, and museum passes.

September is Library Card Sign-up Month, and we are reminding

parents, caregivers, and students that signing up for a library card is the first step towards academic achievement and lifelong learning.

Adults living within the boundaries of the Batavia Public Library District may register for a free library card for themselves and their children under the age

of 18 at the Check Out Desk. To obtain a Batavia Public Library card, bring proof of identity and proof of residency within the Library district. For more information, please call the Circulation Services department, 630-879-1393.

## Under the Cupola

### Zero tax-rate change

At its regular meeting on July 17, the Board of Library Trustees voted unanimously to place a proposal on the November ballot. That action, if approved, will result in a zero tax-rate change for residents.

**The Proposal:** The proposal requests a seven-cent (7¢) increase in the Library’s general operating tax rate; however, the overall tax rate for residents will remain the same, because the Library’s tax rate for paying off building construction

bonds—slightly more than seven cents—will be eliminated; the debt will be retired in December 2018.

**The Need:** If the voters approve the referendum proposal, then the board intends to use the revenue to maintain and repair the building and to maintain and improve services, especially in the following areas, as recommended by participants in the Speak Up! Community Engagement initiative:

**Infrastructure Needs:** Maintain the community’s investment in the Library’s building and site by systematically addressing long-term maintenance needs, which are identified in the Library’s Capital Asset Plan. The estimated cost of this plan is \$2.8 million in the first five years and \$5.1 million over 20 years (in today’s dollars).

**Quality Staffing:** Ensure exceptional services to Library users by providing and supporting quality staffing.

**Robust Collections:** Maintain a robust collection of materials in multiple formats (print, audio-visual, and digital).

**Changing Technology:** Respond to changing service and technology needs for all ages (infants to seniors).

**Responsive Hours of Operation:** Maintain and/or expand hours of operations.

**The Pledge:** The Board of Library Trustees is committed to a zero tax-rate change. As illustrated in the following chart, the Library’s proposal redirects the seven-cent tax rate used to pay back the construction bonds to the Library’s tax rate for operations to maintain the community’s investment in our nearly 20-year-old resource, the Batavia Public Library building and site.

Look for more information on the referendum proposal in coming weeks. The Library’s job is to provide the information you need to make an informed decision.
